

1

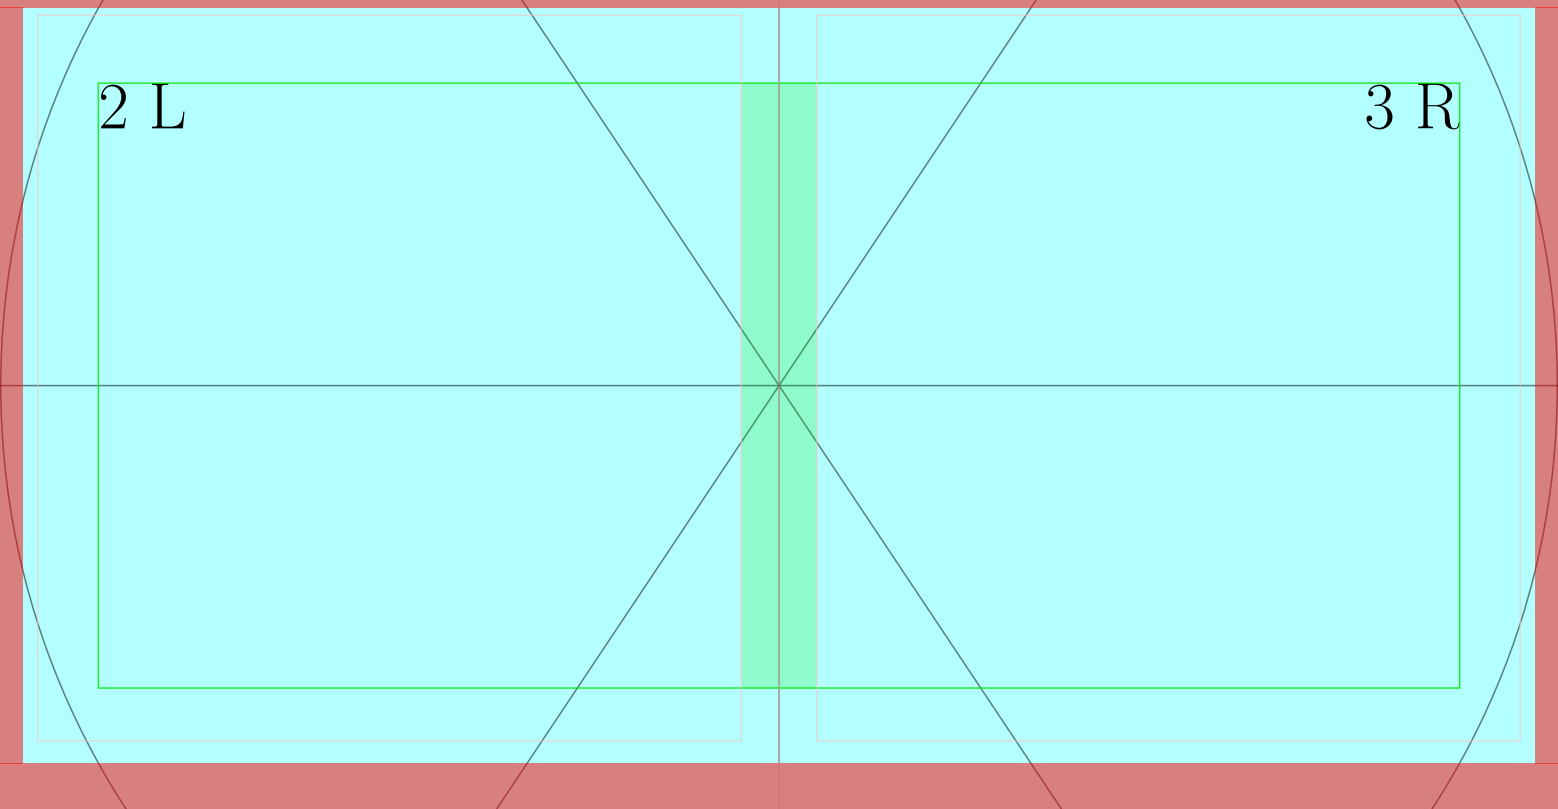

A yellow square with a thin green border and a light green center. The number '1' is centered in a light green font. The square is divided into four quadrants by a horizontal and vertical line, and further into eight triangles by two diagonal lines. The entire square is set against a red background.

1

A cyan square with a thin green border and a light blue center. The number '1' is centered in a light blue font. The square is divided into four quadrants by a horizontal and vertical line, and further into eight triangles by two diagonal lines. The entire square is set against a red background.

1 R

A diagram showing a rectangular field with several geometric overlays. A large red rectangle is at the top. Below it is a light blue rectangle. Inside the light blue rectangle is a green rectangle. A vertical green bar is in the center of the green rectangle. A horizontal line and two diagonal lines intersect at the center of the green rectangle. The text '2 L' is in the top left and '3 R' is in the top right of the green rectangle.
